

Humanize — AI Content Formatter

Planning with ChatGPT

Build a modern web application called "Humanize".

Now improve the AI generation logic.

Add a "Make More Human" feature.

Redesign the entire interface to look like a premium commercial AI application.

UI Enhance

Q1

Q2

Q3

Q4

Premium UI Redesign

Visual hierarchy
Typography & spacing
Cards & buttons
Input area & result editor

States & Interactions

Empty states
Loading states
Success states
Subtle animations

Responsive Design

Fully responsive layout
Mobile, tablet, and
desktop support
Consistent experience
across screen sizes

Theme & Product Identity

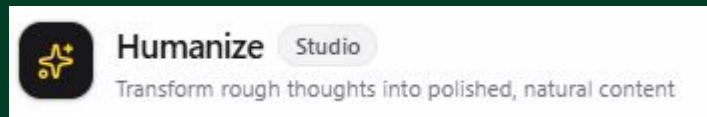

Light & Dark Mode
Premium AI Design
Professional Content Product

Try the Application

Experience the AI Content Generator

Create polished, well-structured content with a modern AI-powered experience.
