

SpendWise AI

Final Project

Brief Project Description

SpendWise AI was successfully completed as an AI-powered personal finance application. It improved financial tracking, transaction management, and budget monitoring while providing personalized AI insights. The project achieved its main goals with a simple, professional, and user-friendly interface.

1

SpendWise AI is a smart application for managing and organizing personal expenses. It helps users track their income, expenses, and budget through an interactive dashboard. The application displays the total balance, monthly income, monthly expenses, and remaining budget, in addition to expense categorization and transaction and report tracking, while using artificial intelligence to provide **Financial Insights** and recommendations based on the user's data.

Main Application Features

The successful completion of SpendWise AI demonstrated the team's ability to develop a practical AI-powered solution. The project provided a simple and effective way to manage personal finances while highlighting the value of AI in improving financial decision-making.

2

- **Dashboard:** Displays a summary of the user's financial status.
- **Transactions:** Add and track financial transactions.
- **Budget:** Set and manage the budget.
- **Reports:** Analyze and display financial data.
- **Category Allocation:** Distribute expenses by category.
- **Spending Velocity:** Track the spending rate.
- **Financial Overview:** Display income, expenses, and remaining budget.
- **Quick Add:** Quickly add transactions.
- **AI Insights:** Analyze financial data and provide smart advice and recommendations.
- **Minimal UI:** A simple and professional design that focuses on essential information

3

The application interface is designed in a **Minimal & Professional** style and consists of the following main tabs:

- **Dashboard** — Financial summary and analytics.
- **Transactions** — Manage financial transactions.
- **Budget** — Manage the budget.
- **Reports** — Reports and analytics.
- **Settings** — Application settings.
